ABOUT THE “TRACKER” TOOLS

“Trackers” are a new set of tools within PCDART designed to analyze numerous types of cow data. Trackers can help answer specific questions about herd records by providing a new way of analyzing the data to identify potential problems.

ABOUT DR. BETHARD

Dr. Bethard is a partner in G&R Dairy Consulting and is Assistant Director for Dairy Technology at DRMS in Raleigh, NC. As a private consultant he has advised numerous agri-businesses and client dairies ranging from 50 to 10,000 cows across the U.S. and internationally. At DRMS, he has been instrumental in developing the new “Tracker” series of PCDART analytical tools and in updating and refining reproductive calculations. Dr. Bethard received his Ph.D. in Dairy Science from Virginia Tech.

SPONSORS

The **Risk Management Agency (RMA)** provides sound risk management solutions for farmers. More information is available at: <http://www.rma.usda.gov>

Dairy Records Management Systems (DRMS) provides dairy records processing and dairy management and analysis tools for consultants and producers. <http://www.drms.org>
